New Glazed Pottery Novelties

Planted with Cactus and Succulents

SOLEDAD ROCK & WATER GARDENS

Pacific Beach

San Diego, California

We have a large shipment of this new novelty glazed pottery ordered to arrive from Japan about the middle of November. Several of the items were made from models furnished by us and will be sold exclusively by us this coming fall and winter. In our estimation this is the finest line of glazed pottery novelties planted to Cactus and Succulents, that have been offered at popular prices. The designs and color combinations make them most attractive and salable.

In addition to the items listed and illustrated here, we have on hand a limited quantity of Elf Bowls, Pastel Pots and larger Animal Figure Bowls in sets of three, planted to Cacti and Succulents at 40 cents each.

We still have our complete regular line of plant arrangements in Cactus wood and hand-made red pottery as listed in our 1937-38 catalog and the largest stock of Cactus and Succulent plants and Ivies, ready for fall and winter sales, that we have ever had.
